2013 PAVEMENT PRESERVATION PROGRAM NEIGHBORHOOD SLURRY SEAL

On Wednesday, May 8, 2013, Granite Construction Co., under contract with the City of Tucson Department of Transportation (TDOT), will apply slurry seal to all the residential streets in the following neighborhoods:

May 8, 2013 – Country Club Road to the west, Alvernon Way to the east, Pima Street to the north and Speedway Boulevard to the south.

May 15, 2013 – Swan Road to the west, Craycroft Road to the east, Fifth Street to north and Broadway to the south.

May 22, 2013 – Pantano Wash to the west, Harrison Road to the east, Golf Links Road to the north and Sellarole Street to the south.

Crews will be working from 7 a.m. to 4 p.m., Monday through Friday. Residential access will be maintained at all times during the project. The traveling public can expect delays when driving in the work area. Please obey all traffic control signs and watch for construction personnel and equipment in the work area.

The pavement improvement project is part of the Fiscal Year 2013 Mayor and Council approved Pavement Preservation Program, a one-year, \$20 million street rehabilitation program to resurface arterial, collector and residential streets. The funding was made available by restructuring the Fiscal Year 2013 Highway User Revenue Fund (HURF) debt, the increase of HURF revenue and General Fund money.
